Clinical Negligence, 4th edition
Edited by Michael Powers QC, Nigel Harris and Anthony Barton

"It is difficult to see how any serious practitioner can afford to be without this unique book" Clinical Risk

Written by a team of 77 legal and medical experts, Clinical Negligence, 4ed provides authoritative guidance on all aspects of clinical negligence claims, from bringing an action for damages to presenting expert evidence in court. The 5th edition also co-edited by one of our team is in progress

Comprehensive, authoritative guidance from start to finish
While Part I provides comprehensive coverage of the practical legal aspects of negligence actions, Part II provides expert accounts of the risks and standards of practice associated with 22 different areas of clinical practice. A uniquely valuable book for both lawyers and clinical practitioners, Clinical negligence, 4ed will help you make the best possible preparations for an action.

New legislation – New case law
Fully revised and updated, this new edition will provide you with an in-depth understanding of current issues, covering:
- Important House of Lords decisions including: Gregg v Scott; Chester v Afshar; Fairchild v Glenhaven; Barker v Corus; asbestos pleural plaque litigation; A v Hoare
- The Court of Appeal decision for Thompstone v Glossop
- The NHS Redress Act 2006 concerned with compensation for clinical negligence in hospital settings
- The proposed new coroners’ legislation
- The proposed new medical professional regulation

Five key reasons why you need a copy of Clinical Negligence, 4ed
- Access 9 brand-new chapters covering essential medical and legal areas
